Long Distance Dart Paper Airplane

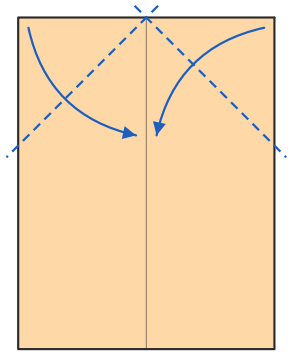

Step-by-step folding instructions

1

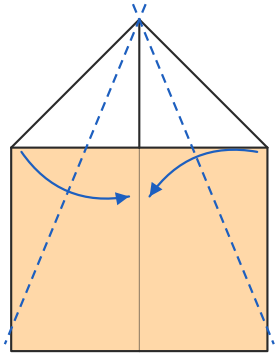

1. Use a sheet of printer paper. Fold it in half the long way, then unfold.

2

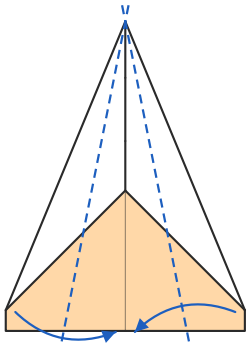

2. Fold the top corners in to the centre crease.

3

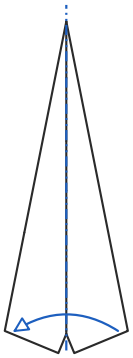

3. Fold the slanted edges in to the centre crease again.

4

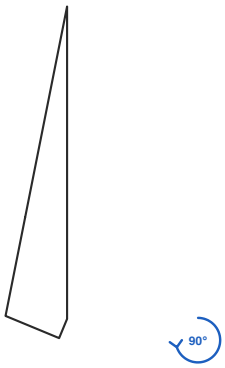

4. Fold the slanted edges in to the centre one more time. The nose is now long and thin.

5

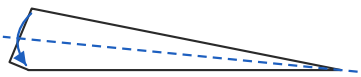

5. Fold the plane in half behind, along the centre crease.

6

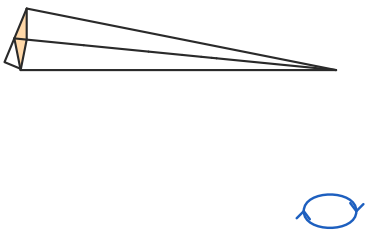

6. Turn the plane on its side, nose to the right.

7

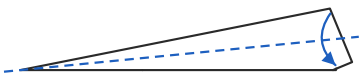

7. Fold the top layer down so its top edge meets the bottom edge. This is the first wing.

8

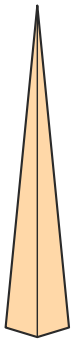

8. Turn the paper over.

9

9. Fold the second wing down the same way.

Seen from above, wings open

Done. Open the wings so they sit flat and level. Throw it hard and straight: this one is built for distance.
