Origami Ninja Star

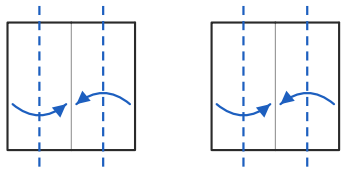

Step-by-step folding instructions

1

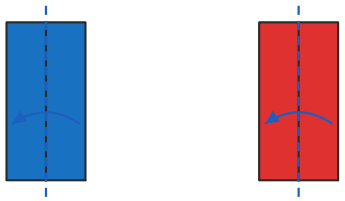

1. You need two squares in two colours, white side up. Fold each one in half from side to side, then unfold.

2

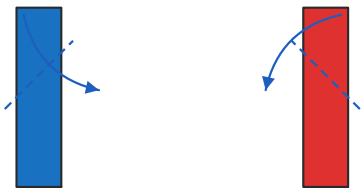

2. Fold the left and right edges in to the centre crease.

3

3. Fold each one in half to make a long strip.

4

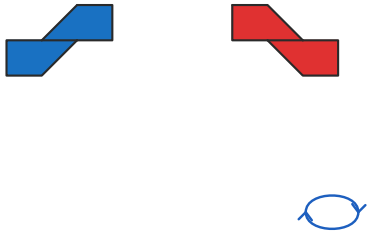

4. Fold the top half of each strip to the side, on a slanted line that starts at the middle. Fold the two strips opposite ways.

5

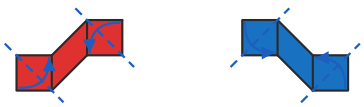

5. Fold the bottom halves to the other side the same way.

6

6. Turn both pieces over.

7

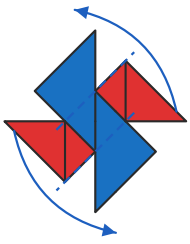

7. Fold the square at each end in half to make a triangle.

8

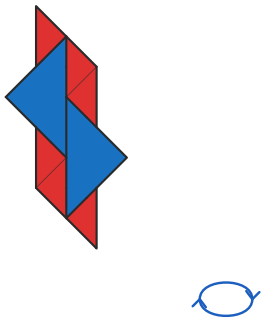

8. Turn the blue piece over, give it a quarter turn and lay it across the middle of the red piece.

9

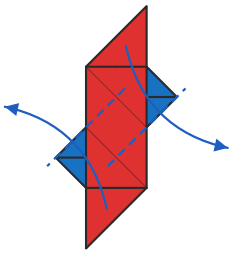

9. Fold the two red points over the blue piece and tuck them under the blue flaps.

10

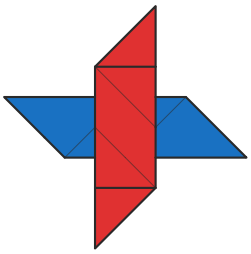

10. Turn the paper over.

11

11. Fold the two blue points over the red piece and tuck them under the red flaps.

Done. Your ninja star is done.
