Origami Owl

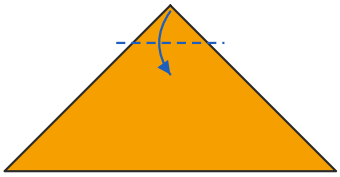

Step-by-step folding instructions

1

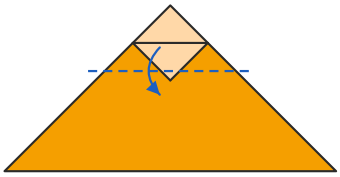

1. Start with the white side up, turned like a diamond. Fold the bottom corner up to the top corner.

2

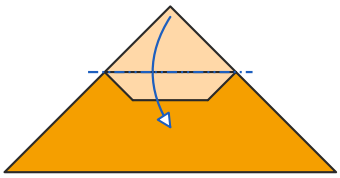

2. Fold the top point of the front layer down a little.

3

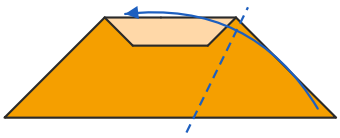

3. Fold it down once more. This is the owl's brow.

4

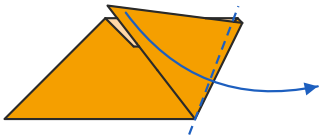

4. Fold the top point behind, level with the brow.

5

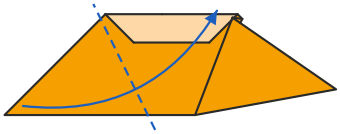

5. Fold the right corner up and across, on a line from just right of the middle of the bottom edge to the side of the head.

6

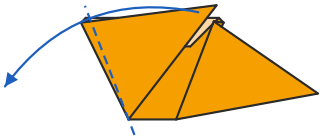

6. Fold the same flap back out to the right. This is the right wing.

7

7. Fold the left corner up and across the same way.

8

8. Fold it back out to the left. This is the left wing.

Done. Draw two big round eyes and a beak under the brow. Your owl is done.
